

Timeless

Case

Looking at the tears build
In the wells of your eyes
Say you don't wanna deal with a stranger any more
I know I fuck up sometimes, but...

Do I need to remind you
That our love is timeless
Took forever to find your love
Girl our love is timeless

And you don't even wanna try anymore
They say the one that love's you the most might break your heart
I never thought thing would fall apart
Not this way, no not this way

Do I need to remind you
That our love is timeless
Took forever to find your love
Girl our love is timeless

Thought I felt lost without you
Come let me talk about it
I bet would leave if you just walked away
So I'm begging you to stay
I need you to girl

Do I need to remind you
That our love is timeless
Took forever to find your love
Girl our love is timeless

Need to remind you
I remind you everyday
For the rest of my life
Our love is timeless
