

# Cougartown

Casey Abrams

Let me tell you a little something  
That's a town that I know  
That'll make your garden grow  
It's a magical place, even though it'll soak your face  
Where the women are wise  
With seductive lust in their eyes and a piercing look  
That you're gonna feel though every single nook  
She got love, she got style  
Her forte is a train that's a thousand miles long  
And you know her caboose is strong  
Experience with that grin?  
Oh boy, it'll really win  
But you know, I think it's a win-win  
Casey, tell them where you been

It'll started out at a cheap hotel  
A two dollar whiskey hell, close to L.A  
I was turning tricks on the saxophone  
Trying to make my way back home  
And maybe get laid  
She was swimming around the bar  
Hunting boys down like a shark  
The target lock was set on me  
She took me by the hand  
Introduced me to her friends  
And all the rest is history

She got me down in cougar town  
Beautiful ladies all around  
She got me down in cougar town  
There ain't no better place around

Riding smooth like a limousine  
She was my love machine  
And I was her toy  
She showed me things I ain't seen before  
She opened that secret door  
For grown men, not boys  
There were birds and there were bees  
Ladies hanging from the trees  
And everyone was waiting for me

She got me down in cougar town  
Beautiful ladies all around  
She got me down in cougar town  
There ain't no better place around

Cougar town  
Cougar town  
Cougar town, baby  
Cougar town  
Cougar town  
Cougar town, baby

She got me down in cougar town  
Beautiful ladies all around  
She got me down in cougar town

There ain't no better place around

She got me down in cougar town  
Beautiful ladies all around  
She got me down in cougar town  
There ain't no better place around

I been to Indonesia  
But it's better than that  
Bolivia tried to please you  
But it's better than that  
Jamaica, nice to meet you  
But it's better than that  
Cougar town got it now

Sweden's got the cuties  
But it's better than that  
You know Bermuda tried to do me  
But it's better than that  
You know but Cuba's got the booty  
But it's better than that  
Cougar town got it now

She got me down in cougar town  
Beautiful ladies all around  
She got me down in cougar town  
There ain't no better place around
