

You

Casey Abrams

If you want to write a song
It won't take us very long
It might be a minute or two
'Cause I love writing songs with
You
With You
I love writing songs with you
With you
(With you)

First thing I hear is your smile
First thing I see is your laugh
First thing I feel is your heart
I think it's my favorite part
Of you
My favorite part of you
My favorite part of you
My favorite part of you
(My favorite part of you)

It's gonna take all day
It's gonna take all night
We're gonna make a song
That's gonna feel alright

Last thing I hear is your smile
If you want to write a song
Last thing I see is your laugh
It won't take us very long
Last thing I feel is your heart
It might be a minute or two
I think it's my favorite part of
'Cause I love writing songs with you
I love writing songs with you
Favorite part of you
I love writing songs with you
