

All I Need

Casey Barnes

Daylight breaks but I'm still backwoods
I'll keep shoveling to finish the hole we're in
Swing shifts late to finish the road works
I'll keep taking it, covered in rain and grit

Oh, we'll get out
Finally find a home that I know we've been talking about
And oh, I can see
Everywhere's a home when I know I can hear you breathe
It's all I need
You're all I need

I'm wide awake on miracle mountain
Knowing that the [?], how did we get there
You filled me up, we hustled and hunted
Everything's stale and old, it tastes like a cobble stone

Oh, we'll get out
Finally find a home that I know we've been talking about
And oh, I can see
Everywhere's a home when I know I can hear you breathe
It's all I need
You're all I need

Oh, one thing's for sure
Well I can do this easily
Just keep smiling at me
And oh, you're what it's for
You made me feel alright
As long as your smile's bright

And oh
Finally find a home that I know we've been talking about
Oh, I can see
Everywhere's a home when I know I can hear you breathe
Yeah everywhere's a home when I know I can hear you breathe
'Cause you're all I need
Oh, you're all I need
All I need
Mmm, just you and me
Just you and me
