Bright Lights

Casey Barnes

Touch down in Tennessee, corner of Broadway
The lights are beautiful, but it's so lonely without you here
Mmm, without you here

Yeah, all the magazines ain't just a fantasy
Wish you were seeing what I'm seeing
'Cause it's lonely without you here
I wish that you were near

Blue skies taking me away
Big dreams, kinda hard to explain it
But one flight, I'll be on my way
To be by your side

All the bright lights, baby, couldn't take me away
I've tasted the highs, but it don't feel the same
It's time to come home, and I'm counting the days
No, the bright lights, baby, couldn't take me away

All the bright lights, baby, couldn't take me away
I've tasted the highs, but it don't feel the same
It's time to come home, and I'm counting the days
No, the bright lights, baby, couldn't take me away

Take me away
No, the bright lights, baby, couldn't take me away

I see the neon signs light up across the street
It might look pretty, but this city ain't always the way it seems
The town of a million dreams

Just wanna hear your voice speak over all the noise
Ain't really living if I'm living here, honey, without your love
I'll never get enough

Blue skies taking me away
Big dreams, kinda hard to explain it
But one flight, I'll be on my way
To be by your side

All the bright lights, baby, couldn't take me away
I've tasted the highs, but it don't feel the same
It's time to come home, and I'm counting the days
No, the bright lights, baby, couldn't take me away

All the bright lights, baby, couldn't take me away
I've tasted the highs, but it don't feel the same
It's time to come home, and I'm counting the days
No, the bright lights, baby, couldn't take me away

Take me away
No, the bright lights, baby, couldn't take me away

Every night feels wrong when I ain't with you
No, I'll never leave, girl, I promise you

Bright lights, baby, couldn't take me away

I've tasted the highs, but it don't feel the same
It's time to come home, and I'm counting the days
No, the bright lights, baby, couldn't take me away

All the bright lights, baby, couldn't take me away
I've tasted the highs, but it don't feel the same
It's time to come home, and I'm counting the days
No, the bright lights, baby, couldn't take me away

Take me away, mmm, yeah
Take me away (Take me away, yeah)
It don't feel the same
No, the bright lights, baby, couldn't take me away
