

## Light It Up

Casey Barnes

I've been buried deep, six feet down  
Drank the devil's tea, I was down for the count  
Know the Reaper well, won't stop knockin'  
Told him go to Hell, I'ma keep on walkin'

I was dead and gone  
Long way from home  
I was knocked to the ground  
But you can't keep the good ones down

Light it up, light it up  
Pour some diesel on the fire, turn it into the sun  
Light it up, light it up  
Don't you worry about the burn, 'cause it's half of the fun  
Light it up, light it up

Hit the bottoms up, tastes so sweet  
Ready to rumble, throw the lion to the sheep  
On a mountaintop, won't come down  
Pedal to the metal, you ain't catching me now

I was dead and gone  
Long way from home  
I was knocked to the ground  
But you can't keep the good ones down

Light it up, light it up  
Pour some diesel on the fire, turn it into the sun  
Light it up, light it up  
Don't you worry about the burn, 'cause it's half of the fun  
Light it up, yeah, light it up

Light it up (Light it, light it up, light it, light it up)  
Light it up (Light it, light it up, light it up)

Light it up, light it up  
Pour some diesel on the fire, turn it into the sun  
Light it up, light it up  
Don't you worry about the burn, 'cause it's half of the fun  
Light it up, light it up

Light it up, light it up  
Light it up, 'cause it's half of the fun  
Light it up
