

# Love Fool

Casey Barnes

It's like a fantasy  
It's more than chemistry  
My heart, it won't stop knockin'  
I'll take you out with me  
Black boots and skinny jeans  
We'll get the whole town talkin'

A little whisky as the sun goes down  
Girl, let me chase it with you  
You got a hold on me  
Already on my knees  
And I just keep on falling

I'm a love fool  
I hang on every word that you say  
Think you're so cool  
Yeah, I'ma do whatever it takes

Touch you is levitation, give you my dedication  
Baby, you can have it your way  
I'm a love fool  
I hang on every word that you say  
(I'm a love fool)

You're like an antidote  
I need another dose  
Just like a dog, I'm crawling  
Come give me sweet relief  
I'll give you what you need  
Girl, I'm all yours till morning

One look from you and then I hit the ground  
That's all that you gotta do  
You got a hold on me  
Already on my knees  
And I just keep on falling

I'm a love fool  
I hang on every word that you say  
Think you're so cool  
Yeah, I'ma do whatever it takes

Touch you is levitation, give you my dedication  
Baby, you can have it your way  
I'm a love fool  
I hang on every word that you say  
(I'm a love fool)

It's every night and day, you make me feel this way  
Can't get enough of you, I'm a love fool  
It's every song I play, with every breath you take  
I think it's safe to say I'm a love fool

I'm a love fool  
I hang on every word that you say  
Think you're so cool  
Yeah, I'ma do whatever it takes

Touch you is levitation, give you my dedication  
Baby, you can have it your way  
I'm a love fool  
I hang on every word that you say  
(I'm a love fool)

I'm a love fool  
I'm a love fool
