

Sparks Fly

Casey Barnes

Damn girl you're in my head, heart beatin' outta my chest
Baby, you got this man wanting more
Aye now I must confess, you're killing me in that dress
We all know what comes next, damn right we do

When I took her to the floor
We got swinging back and forth
Sipping whisky from the same glass, buzzing off the tab
Oh man, I think I love you

Sparks fly 24/7
Doesn't matter where I go with you, no
All nights talking bout nothin'
Just a bottle and a backseat tune
Yeah, you wake up and you're insta ready
What we got it don't need no edit
I light up like the 4th of July
When your lips meet mine
Sparks fly
Sparks fly

Girl, you're a perfect 10, baby, you know I'm in
You got me sink or swim, if you want it
Aye now I must confess, you're killing me in that dress
We all know what comes next, yeah, damn right we do

When I took her to the floor
We got swinging back and forth
Sipping whisky from the same glass, buzzing off the tab
Oh man, I think I love you

Sparks fly 24/7
Doesn't matter where I go with you, no
All nights talking bout nothin'
Just a bottle and a backseat tune
Yeah, you wake up and you're insta ready
What we got it don't need no edit
I light up like the 4th of July
When your lips meet mine
Sparks fly (Sparks fly)
Sparks fly (Fly, yeah)

When it comes to you and I
We are diamonds in the sky
Lighting up like neon lights
All eyes on us, all eyes on us
When it comes to you and me
It's like electricity
When you touch me I get weak
Come light me up, come light me up
(Come light me up)

Sparks fly 24/7
Doesn't matter where I go with you, no
All nights talking bout nothin'
Just a bottle and a backseat tune
Yeah, you wake up and you're insta ready

What we got it don't need no edit
I light up like the 4th of July
When your lips meet mine
Sparks fly
When your lips meet mine
Sparks fly
Sparks fly, sparks fly
Sparks fly
Talkin 'bout 24/7
