

Summer Nights

Casey Barnes

Oh man, another long day
About to get paid
Put the boots in the back
That's right
Taking all the back roads
On the way home
I'll be there in a flash
Gonna grab some whisky
We drink it straight don't mix it
Cause when the sun goes down we play
And I can't wait

These summer nights no doubt about it
We 'bout to have one helluva party
Man the good times, just getting started now
Beers on ice, and your favourite song
We'll light up the fire and sing along
I can't wait for the weekend to come around
So bring on those summer nights
Bring on those summer nights

Aw yeah, I got a few friends
A couple cold tins
You bet I'm all in
I don't care
You wanna let loose
Don't matter - you choose
We about to begin
Meet you there on Friday
We can do things our way
Cause when the sun goes down we play
And I can't wait

These summer nights no doubt about it
We 'bout to have one helluva party
Man the good times, just getting started now
Beers on ice, and your favourite song
We'll light up the fire and sing along
I can't wait for the weekend to come around
So bring on those summer nights
Bring on those summer nights

Bare feet and fireflies
Red glow in the evening sky
It don't get no better than tonight

These summer nights no doubt about it
We 'bout to have one helluva party
Man the good times, just getting started now
Beers on ice, and your favourite song
We'll light up the fire and sing along
I can't wait for the weekend to come around
So bring on those summer nights
Bring on those summer nights
Bring on those summer nights
Bring on those summer nights
So bring on those summer nights
