This Ain't The Encore

Casey Barnes

I got a fever down in my soul
Everybody talkin' 'bout things they don't know
I can't take the weight on me brother
In one ear and out of the other
All I know is that I'm going crazy at home

Day 1 had a little alcohol
Day 2 took a pill to sleep it off
Day 3 got a little booty call
I can't stop

If you like some rock in your roll
I'll make you the star of the show
We'll play ten nights, sold out together
They'll be singing our songs forever
We're gonna leave 'em wanting some more
Baby, this ain't the encore

Man, it feels good to be on the road
Rolling through another town we don't know
One day leads to another
Cold beer for lunch and whisky for supper
If I had a say I'd never go home

Day 1 had a little alcohol
Day 2 took a pill to sleep it off
Day 3 got another booty call
I can't stop

If you like some rock in your roll
I'll make you the star of the show
We'll play ten nights, sold out together
They'll be singing our songs forever
We're gonna leave 'em wanting some more
Baby, this ain't the encore
This ain't the encore

And if you're ready, baby, we leave tomorrow
And if you let me, I'll make it the time of your life

If you like some rock in your roll
I'll make you the star of the show
We'll play ten nights, sold out together
They'll be singing our songs forever
We're gonna leave 'em wanting some more
Baby, this ain't the encore

(This ain't the encore)
Baby, this ain't the encore
This ain't the encore
Baby, this ain't the encore
