

Up In Flames

Casey Barnes

We've been at it like this for days
You don't call, I just drink
I could say things I don't mean to say
But that ain't gonna make you stay

If I let my heart speak, you're not the enemy
There ain't no one gonna take your place
I'll tell you honestly, I'm never gonna leave
Even in your darkest day

A little light can ignite another
A little love goes a long way
Nothing works when we fight each other
Only love can make it okay
When it hurts, in the worst, be the first to forgive and forget
And just let it go
A little light can ignite another
So take my heart and set it up in flames

Take my heart and set it up in flames, oh yeah

We've all heard just how the story goes
When love don't win and hearts grow cold
I don't want it to be me and you
I know what I gotta do

Gotta let my heart speak and pull you close to me
Even if you're pulling away
I'll tell you honestly, I'm never gonna leave
Even in your darkest day

A little light can ignite another
A little love goes a long way
Nothing works when we fight each other
Only love can make it okay
When it hurts, in the worst, be the first to forgive and forget
And just let it go
A little light can ignite another
So take my heart and set it up in flames

Take my heart and set it up in flames
A little light, little light

Let it burn, let it burn, let it burn, let it burn
I ain't gonna let it burn out
Let it burn, let it burn, let it burn, let it burn
Girl, you make my world go round
Let it burn, let it burn, let it burn, let it burn
I ain't gonna let it burn out
Let it burn, let it burn, let it burn, let it burn
Girl, you make my world go round

A little light can ignite another
A little love goes a long way
Nothing works when we fight each other
Only love can make it okay
When it hurts, in the worst, be the first to forgive and forget

And just let it go
A little light can ignite another
So take my heart and set it up in flames

Take my heart and set it up in flames
Up in flames, take my heart and set it up in flames
Up in flames
