

Alabama Slammer

Casey Donahew Band

I've got enemies I respect
And I've got friends that I can't stand
A pile of bills at home but I keep working for the man
Now I'm heading westbound out on I-10
This big rig's caught the wind and I'm headin home
And I tell her she's on my mind
I pop the clutch and I feel it whine so I let it go

Now it hits me like a hammer
Last night's Alabama Slammer
My head revs like an engine gearin down
Well my left hand's on the wheel
While my right hand's steady still as I roll one up
And all my friends say take it easy
But I take it any way that I can

I pump the pedal twice for a brake check
I let the air horn fly at the rednecks
Who are rolling out the bar at 10 past 2
Now I'm lit like a roman candle
And 420 is my handle
And I'm popping that Go Fast
'Cause I makes me fly

Now it hits me like a hammer
Last night's Alabama Slammer
My head revs like an engine gearin down
Well my left hand's on the wheel
While my right hand's steady still as I roll one up
And all my friends say take it easy
But I take it any way that I can

Now I'm lit like a roman candle
And 420 is my handle
And I'm poppin that Go Fast
'Cause it makes me fly
And all my friends say take it easy
But I take it any way that I can
And all my friends say take it easy
But I take it any way that I can
