

# Crash

Casey Donahew Band

Tap the brakes  
We're not slowing down  
The bridge is burning  
There's no turning around  
And she was screaming  
But I don't hear a sound  
And all my friends  
Keep on waiting for this to come unwound

And I don't know why I care  
Don't miss that cold stare she use to give to me  
And I keep hopin that somehow I find my way out now that I can see  
That I've crashed

It was rainin  
She was dressed in white  
We were dancing  
Holdin on so tight  
Just romancing  
And this could be the night  
It was the last time  
Everything seemed to feel so right  
Now she won't stop complaining she driving me insane and I cant breathe

And I keep hopin that somehow I find my way out now that I can see  
That I've crashed  
You know I've crashed

And I don't know all that I can do  
But I can't stay  
Ad I keep holdin on to something to get me through today

And I don't know why I care  
Don't miss that cold stare she use to give to me  
And I keep hopin that somehow I find my way out now that I can see  
That I've crashed  
I've crashed  
You know I've crashed
