

# No Doubt

Casey Donahew Band

I hear you're lookin' for a cowboy to take you for a ride  
Well baby, I think that I'm your man  
'Cause I've been broken and busted  
But these spurs still ain't rusted, and this saddle it's a wonder she'll still ride  
And it's gonna be a long night, so baby hold on tight  
I talk slow, but I still move real fast  
I'm here for the real deal, and your heart's all that I'll steal  
And girl there won't be no doubt

You can't resist my Resistol  
It's black as the nightfall  
My boots they're leather and hide  
I'm here for a wild ride  
I'll stand right by your side  
And we'll dance til the sun comes up  
And I'm tore up from the floor up, look down and look up  
I'm a cowboy from my head to my toes  
And this rodeo's all I know  
I'll put on a real show  
And girl there won't be no doubt

I've been thrown, I've been bruised  
Tossed and confused  
Eight seconds can seem like a day  
But stay out of my way  
'Cause I come to play  
And eight seconds is all that I'll stay

You can't resist my Resistol  
It's black as the nightfall  
My boots they're leather and hide  
I'm here for a wild ride  
I'll stand right by your side  
And we'll dance til the sun comes up  
And I'm tore up from the floor up, look down and look up  
I'm a cowboy from my head to my toes  
And this rodeo's all I know  
I'll put on a real show  
And girl there won't be no doubt

I love a girl with a tramp stamp  
A double dockin' boat ramp  
Whiskey - shaken, never stirred  
Tank tops and flip flops  
Those all night long truck stops  
And beer when it's cold and when it's free

You can't resist my Resistol  
It's black as the nightfall  
My boots they're leather and hide  
I'm here for a wild ride  
I'll stand right by your side  
And we'll dance til the sun comes up  
And I'm tore up from the floor up, look down and look up  
I'm a cowboy from my head to my toes  
And this rodeo's all I know

I'll put on a real show  
And girl there won't be no doubt  
No, girl, there won't be no doubt

I hear you're lookin' for a cowboy to take you for a ride  
Well baby, I think that I'm your man
