

Not Ready To Say Goodnight

Casey Donahew Band

I cleaned up my truck
Bought a long stem rose
I shaved with shaking hands
And put on my best clothes
I laughed at all your jokes
Like a fool, I can't look away
Now your hand's in mine
And I don't know what to say

I'm not ready to say goodnight
I'm not ready to drive you home
I'm not ready to watch you close that door
While I drive off alone
I know there's something between you and me
Let's just ride 'til we see daylight
This road is long and the moon is bright
I'm not ready to say goodnight

I can see you're not sure
I'm not sure, let's just take a chance
Call it luck, call it fate, destiny
Or just circumstance
Now you can walk away
And not look back if you choose
I know we've both been hurt before
So there's nothing left to lose

I'm not ready to say goodnight
I'm not ready to drive you home
I'm not ready to watch you close that door
While I drive off alone
I know there's something between you and me
Let's just ride 'til we see daylight
This road is long and the moon is bright
I'm not ready to say goodnight

We might wind up lost
Or we'll find what we need the most
And we can turn around with the sun
Or drive 'til we hit the coast

I'm not ready to say goodnight
I'm not ready to drive you home
I'm not ready to watch you close that door
While I drive off alone
I know there's something between you and me
Let's just ride 'til we see daylight
This road is long and the moon is bright
I'm not ready to say goodnight

This road is long and the moon is bright
I'm not ready to say goodnight
