

# Whiskey Baby

Casey Donahew Band

My heart is just like a shot glass  
Empty and alone  
Only as good as the spirit in it  
Useless on its own

Your love is just like whiskey  
Burns all the way down  
Lights me up and it gets me right  
Baby, pour me another round

Whiskey baby, driving me crazy  
I'm buzzing from my head to my toes  
I'm flying high and I don't know why  
'Cause it feels like I'm letting go  
And when I'm falling apart and there's no one to save me  
I reach for my whiskey baby

I wish you went down easy  
But I really can't complain  
'Cause I can't get enough of your love  
Coursing through my veins

Sometimes you leave me in pieces  
Shattered on the floor  
But I never learned my lesson  
I keep coming back for more

Whiskey baby, driving me crazy  
I'm buzzing from my head to my toes  
I'm flying high and I don't know why  
'Cause it feels like I'm letting go  
And when I'm falling apart and there's no one to save me  
I reach for my whiskey baby

My friends say I should quit you  
They all know I can't stop  
Baby I need all of your love  
Down to the very last drop

Whiskey baby, driving me crazy  
I'm buzzing from my head to my toes  
I'm flying high and I don't know why  
'Cause it feels like I'm letting go  
And when I'm falling apart and there's no one to save me  
I reach for my whiskey baby

And when I'm falling apart and there's no one to save me  
I reach for my whiskey baby  
You're my whiskey baby

My heart is just like a shot glass  
Empty and alone
