

Did It Again

Casey Donovan

I gotta keep running now,
I gotta keep moving now,
I can't slow down.
Everything don't feel so right
couldn't get much sleep last night
all I've been feeling is confused
now everything is such a blur
I'm losing touch

Catch me before I
lose my grip and I'm left wondering why
I did it again

oh yeah yeah

Oh no I've done it again
will this ride ever end?
I don't know anymore
I know it hurts you too
I'm playing you for a fool
you don't deserve this hurting you

Maybe I should get some help
maybe I should help myself

Catch me before I
lose my grip and I'm left wondering why
I did it again
Catch me before I
lose my grip and I'm left wondering why
I did it again

Are you worried?
am I on your mind?
If I fall would you help me back up?

(Catch me before I fall)
(Catch me before I fall)
(Catch me before I fall)
(Catch me before I fall)

Catch me before I
lose my grip and I'm left wondering why
I did it again
Catch me before I
lose my grip and I'm left wondering why
I did it again
