

Adopted

What love is this
That calms our hearts
Whispers the promise
Into the dark
That we are loved
Yes we are loved until forever

Though we were homeless
In need of rest
Gave us a name
And daily bread
How we are loved
Yes we are loved
Until forever

We are loved
We are known
We are adopted
We are adopted
No longer lost
You have brought us home
We are adopted
We are adopted

What joy is ours
To be so held
We weren't abandoned
And all is well
How we are loved
Yes we are loved
Until forever

We are loved
We are known
We are adopted
We are adopted
No longer lost
You have brought us home
We are adopted
We are adopted

You have made us sons and daughters
And forever You are Father
You have made us sons and daughters
And forever You are Father
You have made us sons and daughters
And forever You are Father
You have made us sons and daughters
And forever You are Father

We are loved
We are known
We are adopted
We are adopted
No longer lost
You have brought us home
We are adopted
