

Creation Testifies

Casey J

As the angels surround Your throne
They join in with creation
They proclaim how great You are

So now we join in with the angels
And sing our adoration
(We're singing) hallelujah
(We're singing) hallelujah

All creation testifies
All creation testifies
All creation testifies
That You are good

If my lips run out of praise
Please remind me of Your goodness
Creation testifies
That You are good

If my lips run out of praise
Please remind me of Your goodness
Creation testifies
That You are good

So now the angels surround Your throne
They're singing of Your glory
They are proclaiming of Your worth

So now we join in with creation
And sing our adoration
Our prayer is heaven come to earth
Our prayer is heaven come to earth

All creation testifies
All creation testifies
All creation testifies
That You are good

If my lips run out of praise
Please remind me of Your goodness
Creation testifies
That You are good

If my lips run out of praise
Please remind me of Your goodness
Creation testifies
That You are good

Forever You've been
Consistent You are
Throughout eternity
God, You will be good

Forever You've been
Consistent You are
Throughout eternity
You will be good

Forever You've been
Consistent You are
Throughout eternity
You will be good

Forever You've been
Consistent You are
Throughout eternity
You will be good

Throughout eternity
You will be good

Throughout eternity
You will be good

Throughout eternity
God, You will be good
