

# Everything I Do

Casey J

Everything I do, I do for You  
Everything I do, I do for You

If You want me to stand up  
When I'm usually sitting down  
If I'm in a crowded space  
And You ask me to spin around  
If I'm by myself or in a room of thousands  
The answer is still yes  
Another song I'll sing  
A different melody  
If You ask of me  
I'll do it

A higher hand I'll raise  
Explode with joyous praise  
Until the whole ground shakes  
I'll do it

Everything I do, I do for You  
Everything I do, I do for You  
Everything I do, I do for You  
Everything I do, I do for You

Not because someone told me  
But because that's what You deserve  
It's my pleasure to please You  
Let me show You Your worth  
If I'm by myself or in a room of thousands  
The answer is still yes

Another song I'll sing  
A different melody  
If You ask of me  
I'll do it

A higher hand I'll raise  
Explode with joyous praise  
Until the whole ground shakes  
I'll do it

Everything I do, I do for You  
Everything I do, I do for You  
Everything I do, I do for You  
Everything I do, I do for You

I will dance  
I will spin  
I will jump a little higher  
I will sing  
I will shout  
Lift my voice a little louder

I will dance  
I will spin  
I will jump a little higher  
I will sing

I will shout  
Lift my voice a little louder

Everything I do, I do for You  
Everything I do, I do for You  
Everything I do, I do for You  
Everything I do, I do for You

I will dance  
I will spin  
I will jump a little higher  
I will sing  
I will shout  
Lift my voice a little louder

I will dance  
I will spin  
I will jump a little higher  
I will sing  
I will shout  
Lift my voice a little louder

Everything I do, I do for You  
Everything I do, I do for You  
Everything I do, I do for You  
Everything I do, I do for You

We will dance  
We will spin  
We will jump a little higher  
We will sing  
We will shout  
Lift our voice a little louder

I will dance  
I will spin  
I will jump a little higher  
I will sing  
I will shout  
Lift my voice a little louder

Everything I do, I do for You  
Everything I do, I do for You  
Everything I do, I do for You  
Everything I do, I do for You
