

Punch- A- Size

Casey Jones

Broken face no one knows why
Crushed ribs and 2 black eyes
All because he's never been to a show
Stand on the stage preaching your rage
Litting it go at every show
When did this turn into who you know?
Do you even know what this songs about?
Do you even care this scenes being torn down?
You pick your clicks
You join your teams
You start the fights
You've fucked this scene
Fuck your shitty scene
