

## Choose Up

Casey Veggies

Straight up out the 'wood, uh, yeah

I said straight up out the 'wood, man I'm fresh off the block  
At 19 I pulled that Audi Coop fresh off the lot  
I'm bout to hop up in that foreign and put the west on the map  
Doing a show out of town with LA on my hat  
I'm from where it goes down, you gotta watch where you at  
Or what you wear, your colors cause they don't care  
I spit that hope all of them others can stay aware  
Cause your son is outside and the war is always near  
Every morning I left the house my momma would say a prayer  
And hoping I get that call that would force her to shed a tear  
See the way that you moving, you doing it out of fear  
They fucked you over the fame, I told you the game ain't fair  
She whispering in my ear she don't want no type of player  
Told her baby I'm rare and I don't think you prepared  
Big mula and I got my ten inches yeah  
I'm talking money and the power, put it on your head

Damn lil mama you done grew up  
She told me that her other dudes suck  
Well why you fuckin' with them losers  
She scared of love all the time, I told her choose up  
I'm like damn lil mama you done grew up  
She told me that her other dudes suck  
Well why you fuckin' with them losers  
She scared of love all the time, I told her choose up

I'm like "What's up?" she like "What's up?"  
I kept it real with her, said I give no fucks  
She on the same page, I guess it's my luck  
Girl what's your address, I play your block up  
Back in high school I was best dressed on 'em  
I rocked that LV, I had to flex on 'em  
In that mattress told her I do magic  
She a goddess, girl you the baddest  
You was Jasmine, I was Aladdin  
We had passion mixed with the fashion  
I can't stack up the money if I can't add it  
Put the whole team on my back and I'm still swaggin'  
Yeah homie that's something you can't fathom  
My chick ass fat, you can look but you can't grasp it  
A lot of girls in the club but I'm a pass it  
Ten years strong in the game, I'm still smashin'

Damn lil mama you done grew up  
She told me that her other dudes suck  
Well why you fuckin' with them losers  
She scared of love all the time, I told her choose up  
I'm like damn lil mama you done grew up  
She told me that her other dudes suck  
Well why you fuckin' with them losers  
She scared of love all the time, I told her choose up

Choose up or lose up  
2016 and beyond

They thought I was done  
Hell nah nigga, hell nah
