

Tunnel Vision

Casey Veggies

I swear ive left here, now im back where I am(am, am,
am)
Ass stuning and fine girls, keep me in my
stands(stands, stands, stands)
But that kinda remind me girls that I dont give a damn
(i said im focus)

I was 2 feet tall, just scraching on my balls
Thinking that I was a man, but I ain't understand
My head so high feel the rhymes in my hands
Trying to make it happen for my fam
Cause raping like a ten
I swear it takes pacience
And a lot of dealing with the fakeness
I am tring to erase it
I am gonna take it
To the place niggas dont think I would make it
Do that even makes sense?
I lace tracks with a feeling thats accient
I could see a picture tring to figure out to paint it
Where pain gliches only little lack of face shit
Me I hit the studio and make hits
Ploting on the payment, life is what you make it
And you niggas ain't gonna get nowere hating
I can't even take this
Dodging all the bullets like I am walking in the matrix
Los angels king just showing yo' the greatness, face it

Damn(damn)
I swear ive left here
Now im back where I am(am, am, am, owohh)
Ass stuning and fine girls, keep me in my
stands(stands, stands)
But that kinda remind me girls that I dont give a damn
I said im focused cause the sky is falling

I was giving attetion to things that shouldn't be
mentioned
Now im focused on coping she got suspension
Seating in the beat laid burnin like incense
Balls like jail time criminal intent
Ball at the right time
This is an invention
Tring to do my thing
Put me on now
Seating in a range with cool aid smile
Cool. hey, how the young boy doing like that?
I just read todlle raps and go stupid on tracks
I just read all the facts I dont know how to act
I swear im with my shades on in the back
Hoving 0-9 we fade in the black
Get a fade to the back girl said im growing up
But I can care less about a girl im blowing up
And I dont need a girl that need me to do her
I want the chick with a good mind and good heart
And yeah women ask about the girls I couldn't cut

Damn(damn)
I swear ive left here
Now im back where I am(am, am, am, owohh)
Ass stuning and fine girls, keep me in my
stands(stands, stands)
But that kinda remind me girls that I dont give a damn
I said im focused cause the sky is falling

I was DTA cause she be fake
And he just worried about what? he can take
Cause she ain't worried about what? he can make
He just worried about whats up for sake, the cake
The shit that niggas talking about
While im chillin im my silly city walking it out
And if I walk to the souths
There I like it cause its real and its recognize
Unlike yoh shit my life will never die
