No boxes, we sure stop and this since the closest thing I go pop with
These drugs will have all the girls popping
Pop this, girl, after that, I have you topless
No contest, came in, straight on me
Next morning, see her laid in, like an omelet
Wake 'er up, have that girl give 'er some massages
Three girls, three homies, call that shit collaging
It's Young Veggies, 2012 on my thirty thousand
Girls wallet hurting, she rather she can drive up a mountain
Talking mountains, I'm never going down
Stay on top of my game, more chains and it's getting crowded

Everything fo' show, you already know
That we was about to blow, kept that on the low
She usually down today, she tryna draw
Excited cause she's with us toward Alaska
Stacking money, right now
Tell them niggas, quiet down
Stacking money, right now
Tell them niggas, quiet down
