

# Surrender

Cash Cash

I was running on an empty heart,  
Not a trace of gasoline  
Trying to dim every single spark  
That could hurt, that could burn all of me

Like a soldier on the battleground  
Lying wounded on the field  
I was fighting alone with a broken sword  
Now I'm caught in a war with no shield

If you hold me now and leave me never,  
Say you'll stay with me forever  
Then I surrender, surrender  
If you hold me now and leave me never,  
Say you'll stay with me forever  
Then I surrender, surrender  
Surrender, surrender

I pushed and pulled all the ones that tried,  
Then I watched them fade away  
As I look around a vacant room,  
I see nobody left here to blame

'Cause I made myself a prisoner  
Shackled up by all my fears  
But I feel you breaking away at the walls,  
Make them fall make them all disappear

If you hold me now and leave me never,  
Say you'll stay with me forever  
Then I surrender, surrender  
If you hold me now and leave me never,  
Say you'll stay with me forever  
Then I surrender, surrender  
Surrender, surrender

Hold me now and leave me never,  
Say you'll stay with me forever  
Then I surrender, surrender  
Then I surrender, surrender
