I'm in a sick BM on DMT
With your BM and she got PMT
But she's still gonna blow like TNT
Sport mode, straight to the B&B
Bit of role-play, I ain't talking D&D
Mushrooms loud, mushroom cloud
Can't hear shit now and I can't see
See I'm deaf to you cunts now, I'm definitely not hearing ya
Sent me here to cause mass hysteria
Panic and fear coming out of your stereo
It's bound to get scarier
Leave you bloody like the sand in Syria
You best clear the area
Or end up closer to God than the mother superior
You niggas inferior
You covet my leather interior
Snakes I'm aware of ya
You've got me you swear but your motives appear alterior
Staffordshire Terrier tearin' ya, skinning ya, wearing ya
Geeze I don't care if ya here with ya Co-dee's
I'll fuck with the pair of ya
Come at me donny, I'm daring ya (Hahah)

Haha, they hate cause I'm making this paper, I don't have to borrow
They hate cause my car is so fast it's already tomorrow
I'm feeling no sorrow
I'm leading, I no longer follow
These hoes are so hollow
They see me with pro so they swallow
Sitting on horses, a mask and a blade like I'm Zorro
Send you straight to the flames
Ain't playing games
Down a couple E&J's
Driveway looking like Stephen James
Feels like an age
Since I come of age
Things change now I'm sitting on a bit of change
Nick Cage got me on a sick wage
Pulling strings like Jim Page
Pulled Jessie J off the fucking stage
Make her feel this dick in her ribcage
Drown out her screams with my laughter
Nut in her twice, her breakfast the morning after
Crush the morning after pill in her juice to avert a disaster
The only time I use a condom's for stuffing coke
Stick it up this chick's bumhole or down her throat
Put her on a plane, train or on a boat
She comes back to me with a bag of unmarked notes
I'm in the fucking coupe
Certain man ain't even in the fucking loop
Take the quickest fucking route
Cause I've got half a box in the fucking boot
Buzz kicking in but I want more
I want blow and I want nose
I want tulips, clovers I want those
I want drugs right now and I want loads

Buzz kicking in but I want more
I want blow and I want nose
I want tulips, clovers I want those
I want drugs right now and I want loads
