Looking straight sick in that straight six
With the 60 plates and the GB sticker
Shifting the stick like I just did a stick up
I just made the pick up
Smell it through the bag like a didn't do the zip up
Feds on my back so I better not slip up
Tiptronic grip and I won't trip up
Tryna be a six figure nigga
With a bankroll that's thicker than a Snicker
That's why you gotta stand and deliver
No in fact, you stand I'll deliver
Life is a bitch you don't get what you give her
And as a result, I fucked up my liver
Used to spend nights doing cans by the river
Now we in Cannes on the French Riviera
BMW [?] just enjoying the weather
Reaping rewards from our latest endeavour
Shit, look in the mirror
Bait undercovers in the black [?]
Thank God I'm in the bimmer
Can't get nicked I'm at the OXO for dinner
Table for two with a view I can't miss
If I do she goes nuts and I just can't deal with her
So I do the dip real quick
Parked up right beside the next whip
Jumped inside it and I'm, gone

Looking straight sick in that V6 with the 60 plates and the charcoal leather
Looking like Jaws with the shark antenna
Heavy on the gas like Senna
Trip to the corner shop cost me a tenner
I got bare cats blowing up my beller
Cause I cook it up better than Nigella
Cook book guaranteed best seller
Serve you that raw, straight salmonella
I'm addicted to the cheddar, and to that brie, and to that feta
Bit of a trendsetter
Trips overseas, straight jetsetter
Yeah I'm up early like a bed wetter
Chasing a settlement from a big debtor
I got a gold eagle on my sweater
Apes on my feet, yeah I'm doing better
I got this down to the letter
That's why they wanna drop man with the Beretta
Some sort of vendetta, they wanna slice me up like a bit of pancetta
True say I'm a go getter and I'm tryna get it in like Dave Guetta
You can just see that from my get up
Gotta do the B cause I know it's a set up
