Pineapple Juice

CASisDEAD

I'll drink pineapple juice for you
You'll drink pineapple juice for me
When we're in bed screams bleed through next door
I'll lick razor blades for you
You'll lick the pain away for me
When we're in bed screams bleed through next door

Hah, hold up, wait, hang on a sec', that's not what I said, don't know what you expect (Nah)
I didn't refuse this out of respect, I wanted neck, I didn't want you to get upset (Hah)
Knock one out over you while you slept, yeah it knocked me out and then I overslept (Hah)
But as for plating babe (Eugh), I ain't licked enough razor blades to do that yet (Haha)
Nah, I ain't done enough sniff love to give you that kind of love (Hah)
But when I'm high, fighting's kinda tough
Should see my search history when I'm on the stuff (Haha)
Lookin' at you on that bed, all the nasty shit, it's runnin' through my head (Head)
I said I'd drink the juice for you, the plan was for you to drink something else instead (Hah)

I'll drink pineapple juice for you
You'll drink pineapple juice for me
When we're in bed screams bleed through next door
My man is always on time
And he delivers
He can do anything he likes
But I finish first (Yeah, yeah)

Yeah, I'm on time, always punctual (Yeah)
Run-flats, 19s, never punctured (Yeah)
Come down now, I'm pullin' up at the junction
Got the pineapple kush, here in conjunction with— (With)
8-ball soft, yeah, I drop it off
We can get off for a bit, 'fore I get off (Ah)
Hear you all over the block, block knock it off (Ah)
Strip, never throwin' a strop, you just top it off (Hah)
I'm on the burner, they can't trace it (Nah)
No real names, don't deal with that bait shit (Nah)
Five-litre lump, you don't wanna race it
Got the heads-up display lookin' like a spaceship (Haha)
Me and them, nah, we're not adjacent
One step ahead, man are always chasin' (Yeah)
Picked up the juice on the way to babe's
Waitin' impatient, she can't wait to taste it

Tell me when you want it
But if you're not about
I've got other juices
Would you go all night for me?

I'll drink pineapple juice for you
When we're in bed screams bleed through next door
I'll lick razor blades for you
When we're in bed screams bleed through next door
