

# Traction Control

CASisDEAD

Yeah, it's CAS  
Here, mate, give us that fire  
Cheers  
(Uh, uh)  
And remember (And remember)  
(Uh, uh, haha)

Yeah, yeah  
Had to lean on that nigga, couldn't take the pressure  
Let me take it off your hands, it'd be my pleasure (Yeah)  
I might wait to take it on, and take it in my leisure  
See, the cost of failure is too much to measure (Uh, uh)  
I just jumped out the morgue, ain't nobody fresher  
Only MC on my level, M.C. Escher (Hah)  
Get that picture with the chick, she look like Kesha  
Open face buffet, she looking like a geisha (Haha)  
The traction control off  
Reaching elevation (Yeah, yeah)  
Thank God for navigation  
I'm on the blower on the blow  
You know, nuttin' major  
Tho' I'm tryna' get this blowie  
Care to make a wager?  
With traction control off  
Blowing smoke  
Listening to Dave Bowie and Erasure (Bowie)  
A nigga baked, just chopping cake with the razor  
I link Mase The Face, we don't drink cerveza  
(Straight without a chaser)

And I just want to see your face (Yeah)  
Doing this was a big mistake (Big mistake, big mistake)  
I was told we would live forever  
Now I wish I could just escape  
I came back as a hungry ghost (Yeah)  
And my body's what I miss the most (Miss the most, miss the most)  
I don't wanna live forever  
I just wish I could decompose

You know it's Hennessey on straight without a chaser  
I got loads of paper, I don't have to chase her (Uh)  
Make her meet my mate just so we can appraise her  
Said, 'Six point eight,' I said, 'He's a hater' (Hahaha)  
Yeah, we got the crate from Jamaica (Yard)  
Grade that'll meet your maker (Hard)  
Pockets so full of pills and flake that  
When I walk around town  
I sound like a shaker  
Feel nostalgic when I cop a Jacob  
I used to play my Sega (Uh)  
Had a grey Laguna left it at the breaker (Yeah)  
Now I treat North London like Laguna Seca  
In that big V10  
Easy overtaker  
Overstand, all black  
Like the Undertaker (Yeah)  
I see you try it at the lights, yeah do me a favour (Slag)

All you see is the rear bumper, see you later (Haha)

And I just want to see your face (Yeah)

Doing this was a big mistake (Big mistake, big mistake)

I was told we would live forever

Now I wish I could just escape

I came back as a hungry ghost (Yeah)

And my body's what I miss the most

I don't wanna live forever

I just wish I could decompose
