

Take me to where they say the world ends
'Cause I can't leave nothing at all to chance
Is it true what they say, when you go there you fade away
Or through a black hole you'll crawl into a safe space

I'll pick up every broken piece of me
Erase every tragic memory
Looking through sullen eyes I'll see

I can't break away from my mistakes
I don't see a way
'Cause my curiosity
Keeps leading me astray

I've been searching
All of my life inside my head
For something
To give me purpose in this world again
If we let ourselves shine bright
See the world in a different light
Keep us in your prayers tonight
And we won't even question
Leaving everything behind

I can't break away from my mistakes
I don't see a way
'Cause my curiosity
Keeps leading me astray
I can't break away
From my mistakes
'Cause my curiosity
Keeps leading me astray

If I open up my eyes to see
And look beyond the haze
To see what my life could've been
Would I still make a change
If I'm destined to be dust one day
Then there's no time to waste
In beauty framed by the mundane
I'll finally find my place
Finally find my place

I can't break away from my mistakes
I don't see a way
'Cause my curiosity
Keeps leading me astray
