

Hold Me Now

Caskets

I've seen all of the faces, of your masquerade
You fabricate feelings that tend to fade
Numbing over time you make me feel so hollow
But I tell you my dear that that's no route to follow

I keep knocking on the same old door
To no answer
I've been here before
I'm holding out but I still want more
Hold me now

Keep me at an arm's length, so I'm just out of reach
You say you'll keep in contact but we don't speak
I know you're moving on but you're the only one that I have left
I'm not the person that I used to be
I've killed the anger inside of me

Hearts breaking
I'm aching
For me to find my home again
I'm shaking
Thoughts racing
Please god don't let this be the end
I keep knocking on the same old door
To no answer
I've been here before
I'm holding out but I still want more
Hold me now

And if you can't save me
Should I waste my time
And if you won't listen
I'll find somebody else, find something to live for

I've seen all of the faces, of your masquerade
You fabricate feelings that tend to fade
Numbing over time you made me feel so hollow
But I tell you my dear that that's no route to follow

Hearts breaking
I'm aching
For me to find my home again
I'm shaking
Thoughts racing
Please god don't let this be the end
I keep knocking on the same old door
To no answer
I've been here before
I'm holding out but I still want more
Hold me now

Hearts breaking I'm aching (hold me now)
Hearts breaking I'm aching
For me to find my home again
