

Sacrifice

Caskets

I'll make this perfectly clear
Let's start from when you were here
Before your mask fell away
The way you take what I give
The things that I won't relive
I'll keep them all locked away

You, torment me with your lies
You, feed me carnage in disguise
You, treat me like a sacrifice
Now, I'm yours only if you'd like

I wish I could take back
All the hate that
I spent on you
I played the fool

I wish I could take back
All the pain that
I felt for you
I played the fool

I wish I could
Take back, take back, take back
I wish I could
Take back, take back, take back

I wish I could
Take back, take back, take back
I wish I could
Take back, take back, take back

Now that we're perfectly clear
And it's just myself that's here
Finally, you've gone your way
You took all that I could give
Left me no reason to live
Why did you throw me away

Now, tormented by why you lied
You, fed me carnage through your eyes

I wish I could take back
All the hate that
I spent on you
I played the fool

I wish I could take back
All the pain that
I felt for you
I played the fool

I wish I could take back
All the hate that
I spent on you
I played the fool

I wish I could take back
All the pain that
I felt for you
I played the fool

I wish I could
Take back, take back, take back
I wish I could
Take back, take back, take back

I wish I could take back
All the hate that
I spent on you
I played the fool
