

Too Late

Caskets

Hold on
Could we be that wrong?
When time is running away from us
Running away
And do we all wait
Until it's too late?
'Cause time is getting away from us
Getting away from us

I'm bleeding on the ground
Silently I drown
But I keep dreaming about it and it keeps plaguing my head like a game
I bathe in the suffering

I said goodbye to my life
Now I feel like a ghost
Someone nobody knows
I'm born again
Now the end's what I fear the most
Time is running away from us

There's a constant pressure, feels like a gun
Pressed against our heads
We die as one

I don't wanna waste away
In everlasting pain
So I'll embrace today

I said goodbye to my life
Now I feel like a ghost
Someone nobody knows
I'm born again
Now the end's what I fear the most
Time is running away from us

You wanna go?
Now elevate your heart
You wanna do it?
Just elevate your heart
I dare you to do it
Just elevate your heart

Just elevate your heart

Hold on
Hold on
'Cause time is getting away from us
Until it's too late?
Too late?
'Cause time is getting away from us

Hold on
Could we be that wrong?
When time is running away from us
Running away
And do we all wait

Until it's too late?
'Cause time is getting away from us
Getting away from us

Hold on
Could we be that wrong?
When time is running away from us
Running away
And do we all wait
Until it's too late?
'Cause time is getting away from us
Getting away from us
