

A Sinner Like Me

Caskey

Questions that I ask myself

Is there heaven for a sinner like me?
Cause I been trying to follow something greater
Is there heaven for a sinner like me?
Cause I been trying to follow something greater

Take a look at my life
I'm so far from perfect
I been paying that price
And I think I deserve it
Feelings of worthlessness creeping inside me
I feel like the serpent is here right beside me

Is there heaven for a sinner like me?
Cause I been trying to follow something greater
Is there heaven for a sinner like me?
Cause I been trying to follow something greater

Growth is hard
But so is being shown the fog
Over y'all, this the season of the underdog
Pain would come into my life and I would numb it all
Then hit the mirror wonder why I'm staying un-evolved
All my vices had to cut em off
Destiny was calling me I check the phone I got a hundred calls
I could tell you what don't work cause I done done it all
Flip the script and had my life doing a summersault
Hard truths plenty I ran from
Blew up in my face but it wasn't a Samsung
If I went ghost on my growth I wouldn't be in a. Phantom
Compression in your life end up being expansion
The pressure in your life turn to victories and some
Long as you can whether the storm
And realize that this cross will forever be worn
And you can act tough homie but its better we morn
I let the pain take its place in my life said grace
Did a circle round him twice slapped the devil in the face
They don't give me flowers while I'm here
But its cool I put my body in a vase

Is there heaven for a sinner like me?
Cause I been trying to follow something greater
Is there heaven for a sinner like me?
Cause I been trying to follow something greater
Is there heaven for a sinner like me?
Cause I been trying to follow something greater
Is there heaven for a sinner like me?
Cause I been trying to follow something greater
