

# Confrontation

Caskey

Let the new and the old school connect  
Respect is universal when great minds collide  
Under well arrange planet and stars  
I damage ya car  
And play a lick inside the spanish guitar  
Ash ya cigar out the window, the routine of new kings  
Enlightenment tips and hits of blue dream  
I'm reading scripts from the prophecy  
Like God damn we about to do things  
Pedals get pushed to the floor, flow traumatic  
My girl hands wave out the window, it's Illmatic  
She tell me, why don't you play some Mackavelli  
Aye, I'm like cool, give me some head  
I'm headlining shows in all states  
Drunk, sober, high, in addition to fifty  
You call late, I'm all straight  
You still callin' up All-State  
Like aw, wait we got in some shit in the parlay  
I'm politician fraudulent emcees for lies told  
I leave 'em dead with my eyes closed  
Me and the outlaws outlining the 5-0's  
And body chalk  
And contacting the Pirus  
Set the city on fire  
Any opposition get a facial upon ties  
And laid in the archives  
Man and you can force the issue with their lies  
Or just pieces of the dark side

You don't want no shit with us dog  
You don't want no shit with us dog  
We some killers in disguise  
And if it comes that one is penalized and this is demise  
Never been okay with livin' lies homie  
So keep yo' head up to the sky homie  
And pray that you never encounter my homies  
So pray that you never encounter my homies, forreal  
Keep yo' head up to the sky homie  
You don't want no shit with us dog  
You don't want no shit with us dog  
You don't want no shit with us dog  
Never been okay with livin' lies homie  
So keep yo' head to the sky homie  
And pray that you never encounter my homies

I'm too nice nigga, no I'm not a nice nigga  
Mind set of a dyke cause I don't like niggas  
Cross me or the team and that's your life nigga  
Ya we rich and we famous this the life nigga  
Come back with that fo-five like I'm mike nigga  
Ya I really do shit you just a might nigga  
Still spending that cash and we just swipe nigga  
Never going left, I'm just a right nigga  
Some pretend to be frauds or criminals  
Or online thugs who only sendin' subliminals  
Love to be back up in Yonkers movin' minerals  
But in a year I'm in Florida like a Seminole

Gator face when you pass by, no friendly shit  
Niggas wanna hate on the swag but they envy it  
Niggas only fuck with you close when they benefit  
Separate my self from the lames, that's the end of it

You don't want no shit with us dog  
You don't want no shit with us dog  
We some killers in disguise  
And if it comes that one is penalized and this is demised  
Never been okay with livin' lies homie  
So keep yo' head up to the sky homie  
And pray that you never encounter my homies

I treat the hood like the middle east  
Pray to Allah hoping Christians deliver peace  
Hangin' out the window chopper fully loaded  
Got you lookin' to the sky prayin' to J Hova  
Remember the last nigga I filled up  
Still brah I really wish I would have killed ya  
Logic cost'a sending bullets through the window  
This that real life you just a pretender, a pretender  
I write verse just to get by while going through pain  
I move white like I'm bleach try'na get rid of stains  
You move bricks in the trunk  
I put mine in the planes  
I'm talkin' all white clouds never seein' no rain  
I'm a pimp til the day I go  
Say pimpin three times baby there I go  
(Pimp, pimp, pimppp)  
And the street sweeper will dust y'all  
I swear to God you don't want no shit with us dog

You don't want no shit with us dog  
You don't want no shit with us dog  
We some killers in disguise  
And if it comes that one is penalized and this is demise  
Never been okay with livin' lies homie  
So keep yo' head up to the sky homie  
And pray that you never encounter my homies  
You don't want no shit with us dog  
You don't want no shit with us dog  
You don't want no shit with us dog  
Never been okay with livin' lies homie  
So keep yo' head to the sky homie  
And pray that you never encounter my homies
