

Demons

Caskey

I've seen the picture painted, I'll force your laughter
Seein' the future lately, I'm ready to come alive
Paint a picture, watch it burn while the record spins
Every time it hurts, but I'm still gon' let 'em in

Uh, uh, da-na-na, na-na, na
Yeah, na-na-na-na
Yeah, it's Caskey

Cartier frames what I'm seein'
Seen y'all in real life, y'all image deceivin'
Man, I advance off the lot and they all get retreatin'
I gave 'em some to believe in
In my own league, wit' y'all I'm not competin'
Credit card swipin'
Mention me, homie, well it's on sight then
I show out by myself with no hypeman
Red dot your forehead, that's enlightenin', shit is so excitin'
Then I blow a bag at Lennox
My card never have a limit
I'm goin' way past infinite
Hustle like I never had a penny
Even though there's a whole lot of M's on me, I'm clutchin'
You could look at it, no touchin'
Homie put too many grams in the Russian
Got the poker face, still no bluffin'
Watch it, unfoldin'
Blessings comin' my way, I'm chosen
Spendin' so much in the store, they closin'
There's so many shoppin' bags, can't hold 'em

I've seen the picture painted, I'll force your laughter
Seein' the future lately, I'm ready to come alive
Paint a picture, watch it burn while the record spins
Every time it hurts, but I'm still gon' let 'em in

Okay, Cadillac all black, everything ebony
I just spent 20K large up at Beverly
Haters in the background, still tryna sever me
Lookin' at you broke boys stuck, I'll never be
On the ground, down bad
Started out in the town with the brown bag
Fillin' up the shoebox, where the pounds at?
How your pockets on zip but you lounge back?
I need my pockets on swole
I put everything on whole
I'm a big dog, I'm large
With a team that is on go
Sendin' shots you cannot dodge
And my bank account lookin' like I play with some ballers
I'ma shop 'til I drop, but I dropped out of college

I've seen the picture painted, I'll force your laughter
Seein' the future lately, I'm ready to come alive
Paint a picture, watch it burn while the record spins
Every time it hurts, but I'm still gon' let 'em in
