

Heaven Is a Place on Earth

Caskey

I wanna wake up where it's sunny
Fall asleep on a bed full of money so I never gotta worry
So I never gotta worry
I wanna wake up where it's sunny, yeah
Fall asleep on a bed full of money so I never gotta worry
So I never gotta worry

So tired bein' stuck in the same place
Wishin' I could change pace
Got advice comin', but I ain't really hearin' her
Why I feel like I wasted a year again?
Look at myself, damn it, we here again
Proceed with caution
I slept on myself, feel like I done ran out of options
But I gotta take responsibility
'Cause my ability constant
Give me my widow
I become who I should've been, not who I resemble
Some fires get rekindled
Other go out, don't come back from the limbo

Yeah, skraight up, bein' human not simple
'Specially when you got all this slept on potential
Go and get it how s'posed to do
Ain't nobody gonna slow for you
Gotta be the one to settle shit
It's all on you, that's the golden rule
It's all on you, yeah
Manifestation, no limitations, gotta be patient

I wanna wake up where it's sunny
Fall asleep on a bed full of money so I never gotta worry
Never gotta worry
I wanna wake up where it's sunny, yeah
Fall asleep on a bed full of money so I never gotta worry
They say Heaven is a place on Earth, take me in a hurry
They say Heaven is a place on Earth, take me in a hurry
They say Heaven is a place on Earth, but you gotta work for it
