

HEX MY ENEMIES

Caskey

Man I'm tryna hex my enemies
Ain't on that love and light shit
Early bird I got the worm and I still took the night shift
They say that heavy is the crown
That's some super light shit
You being something that you not
Marlon Wayan on white chicks

Ok I'm gassed up
I done hit the corner store too much
Man my opps say that they comin
But they never doing much
If they outside send the lo
And make some room for us
They say winning is the best revenge
I say true enough

Outside
Certified
Never heard of you guys
Winning the best revenge
Need no new friends

Unapologetic
Play with me would not advise
Rappers took they shot
They missed and now they not alive
I'm too rich at rapping to go back to copping pies
Staring contest with Ben Frank
We locking eyes
Can I get a Fuck Yeah
All these flights to Europe
And I treat it like it's bus fair
Someone shut the city down
I looked and it was us there
Feel like Katy Perry
They say what you doing up there

Man I'm tryna hex my enemies
Ain't on that love and light shit
The early bird I got the worm and I still took the night shift
They say that heavy is the crown
That's some super light shit
You being something that you not
Marlon Wayan on white chicks

Ok I gassed up
I done hit the corner store too much
Aye we heard they talking shit
But it ain't ever shown to us
He say he next up
But honestly that ain't obvious

And it's comedy you think bout robbing us

Man I keep a pistol on me don't get brolic
I'm gone make sure that your doctor is a workaholic
Put him in the cross hairs
And it's not symbolic
Sipping tears of enemies you sipping gin and tonic
Make that lemon squeeze
Man I been demonic
No Aventador
But I got that Lambo too dawg what you think we in it for
Sipping syrup that's for snoozers
I ain't ever been a cruiser
Get your fifteen minutes of fame
But you won't get a minute more

I'm tryna hex my enemies
Ain't on that love and light shit
Early bird I got the worm and I still took the night shift
They say that heavy is the crown
That's some super light shit
You being something that you not
Marlon Wayan on white chicks

Man I been gassed up
I done hit the corner store too much
Yall been barking a whole lot
But why you pick a bone with us
Took my time with my career
Cuz I ain't really know to rush
Need a few million advance
That's a minor loan to us

Can I get a hell yeah
Try to slide on me
Ima put him in a wheel chair
They say that it's lonely at the top
So what I'm still there
I got all my haters too upset guess it don't feel fair
Well
Life ain't fair homie

Fuck Yeah
All these flights to Europe
And I treat it like it's bus fair
Someone shut the city down
I looked and it was us there
Feel like Katy Perry
