

# Hey Big Head

Caskey

They say your head done got too big  
They say your head done got too big

Blp cause I'm gone keep that shit kosher  
Life is one big roller coaster  
Spend my life dodging these vultures  
Keep to myself then put on for the culture  
Tryna make it bigger than Oprah  
Same time we dodging these cops tryna rope us  
And plus all that venom from cobras  
Trying to find peace  
Deepak chopra  
Onto a newer level  
It comin with newer devils  
Good thing I been a rebel  
Go get some ice they gone talk bout the bezel  
You ain't got no ice say you ain't on they level  
Gone hate anyway tho so why would I settle  
Why would I settle?  
Fuck slowing down for somebody  
They clear up the road put my foot on the pedal

They say your head done got too big  
I think they wish I gave a shit  
When you go up it make em pissed  
Well ain't that bout a bitch  
They say your head done got too big

Surpassed everyone where I came from  
Prolly mad that I did what they ain't done  
And even more upset that I ain't done  
The team was lesser than five  
And we move around like a big corporation  
Had to excavate all of the fake ones  
Man and some of the fakest was day ones  
Put on for my family  
Put on for my brothers  
Don't owe none to none of you suckers  
Who came out the city did this many numbers?  
Man all of my enemies know how they done us  
And we ain't done showing our wins to the world yet  
Going full on exec on a pearl jet  
Got my bags and my check that's a sure bet  
Man the tats on my neck got my girl wet  
Tnt start up the countdown from 5  
Four 45s I'm fortified  
3 stories where I reside  
Got two different wins cause I won every time  
Went independent cause labels wasn't helping me thrive  
I ain't get that feature with Wayne but I tried  
Its funny cause its still 400 outside  
I let go of bird then I learned how to fly  
Made my way to the sky  
They look up ima shit on they life  
They say they been down from the jump  
But you know that's a lie  
Gotta tell by the look in their eye

Only down for the priize  
Saw me down and they said they goodbyes  
Then Yelawolf brought me on tour  
And I showed the whole world how I kill that shit live

They say your head done got too big  
I think they wish I gave a shit  
When you go up it make em pissed  
Well ain't that bout a bitch  
They say your head done got too big
