I cannot be stopped you know we going up  
This was gods plan you can't slow it up  
Praying on my downfall ain't ever led to money comin in  
You know we bound to ball  
Ima go and touch a hundred ms  
They falling off I hate to see it  
Ima millionaire was made to be it  
This right here a one of one they can't repeat it  
Sliding in that double r too rare to eat it  
Bess believe it

Many men

Praying hard on my downfall  
Try minimizing where I came from  
Unchained to this rap game  
But don't be surprised when the chain come  
Gave them boys a rain check on me falling off  
But when the rain come  
Ima pull that umbrella out the rolls royce  
Go on a bank run  
Standing on top of the money  
Lookin at it ain't surprised  
Shoot for the stars  
You might end up on the moon  
As long as you aiming high  
Some homies crossed me  
I was they life line  
It turns out they ain't survive  
Thank God that I never relied on nobody for my odds  
I get even on them boys regardless  
Demon I don't shop at niemen marcus  
How you gonna make a target out me?  
Only time you ever shop at target  
And ain't nothing wrong with being average  
But it was never something I imagined  
Back when I had vaccum sealed the package  
They said that I couldn't make it rapping  
Jokes on them  
Tours from california to auckland  
I got the juice  
My haters need to lawyer up  
Go and get a johnny cochrand  
Winning something that I do often  
Betting against me finna cost them  
And they should have learned it by now but

Calculating up the risks  
I came out the swamp  
Like I got an alligator fist  
They got salivating eyes  
Praying that one of these shots miss  
I get it in as the clock ticks  
Was selling weed out of popeyes  
I been so locked in  
I could hit the target with fetty wap eyes  
Keep on growing like the pot size  
Was round the city with the pot pies  
All they hitting is the pot holes  
We catch em easy like the pop flies  
Staring at the Benjamins  
Was love at first sight second we locked eyes  
Growing up inside of sin  
Florida water only place I was baptized  
Backin in the rolls royce  
So they can see the double r that's on top of the hood  
Mobbin deep  
I ain't ever been shook  
In my city man I gotta be suge  
Gate keeps holding on to the keys  
Where I come from they gotta be took  
That was mine for the taking  
Millionaire in the making  
Back when I was out getting arrested  
Skipping school  
Making beats in the basement  
There was rich people where I come from  
But that shit wasn't contagious  
Just a dollar and a dream  
Pops wasn't round to help all it make sense  
And somehow I'm still the greatest
