

I Changed

Caskey

I changed for the better, for real

I just can't be wastin' time
'Cause everything takes some time, yeah
Second that you make yo' mind
Everything else gotta wait in line

I changed, I changed for the better (I changed, I changed)
I'ma show up in any type weather (I changed, I changed)
Made the crowd move like we at Coachella (I changed, I changed)
I changed, I changed for the better (I changed, I changed)

Circle 'round the block, I'm hysterical
The way I made it in my life is a miracle
I almost ended ugly, that shit would've been unbearable
Almost made my mama have another burial
Instead, I put my music in the stereo
But I was underwater like I'm Ariel
Listen to me 'round the world like a merry-go
I'm in the sky right now, view aerial
I changed, I changed for the better
Used to ride around, Beretta
Takin' everything that I want 'cause it make mo' cheddar
When it rains, no umbrella
Mama used to say I got somethin', keep goin', don't settle
And thank God that I ain't settle
Thank God I ain't listen to the Devil
'Cause I changed for the better

I changed, I changed for the better (I changed, I changed)
I'ma show up in any type weather (I changed, I changed)
Made the crowd move like we at Coachella (I changed, I changed)
I changed, I changed for the better (I changed, I changed)

Pindo killed the beat
