

It Was All a Dream

Caskey

Woke up in a new Bugatti
Then realized its all a dream and got back to grinding
They look up to me and wonder how I ever got it
Homie you don't need those diamonds cause you always shinning

Coppin chains
Wed be the same if they never came
I became
What I wanted and I never changed
Lots to gain
And lots to lose
Is it all in vain?

Keep on going cause I cannot stop this train
Man this thang been in motion
You know that my pain ran deeper than the ocean
Homie there's so much of this I can't explain
You get up you realize money never change a thing

Ya'll now watching greatness in the making
Elevating dodging temptation
Hard work and it took patients
Wasn't an overnight sensation
Got a deal blew it before I saved it
Guess we ain't speak the same language
Thinking rap would never work out
To staring on stage in amazement
All the doubt they threw me transformed
Turned it into something I could use
Thinking I was up and then I lost
Embarrassment that I could ever lose
Back to work I'm lacing up the shoes
All that anger in me lit a fuse
Independent made a.million dollars
Ya'll could really live the life you choose
Talkin bout my wins dawg then speak on my losses
Cause all those setbacks turned my whole click into bosses
First they throw stones then they hang ya'll on crosses
And then they cross ya

Woke up in a new Bugatti
Then realized its all a dream and got back to grinding
They look up to me and wonder how I ever got it
Homie you don't need those diamonds cause you always shinning

Coppin chains
Wed be the same if they never came
I became
What I wanted and I never changed
Lots to gain
And lots to lose
Is it all in vain?

Keep on going cause I cannot stop this train
Man this thang been in motion
You know that my pain ran deeper than the ocean
Homie there's so much of this I can't explain

You get up you realize money never change a thing

It was all a dream
