

Jet Lag

Caskey

Hop off I'm in California
Jet lag
School drop out I still pull up in a S-class
Got no time to celebrate the last win
By the time the check clears
We already moved on to the next bag
200 on the dash
Yeah I'm on they ass
Exotic cars out the dealership and all in cash
If they came up overnight then they falling fast
Bitches in the back seat we call it hauling ass

Count up some more money make me meditate
Headlining shows feel like I'm a heavyweight
Parties at the hotel
Left they had to renovate
Thought we making pizza all this dough we had to generate
Start an LLC and cut the family in
We got family ties
Really came out of this life they tried to glamorize
I turned 30 they still selling 30s tryna thrive
I washed away that dirty money had to sanitize
Sacrifice my own life for something more that I designed
If I said we wasn't richer now then id be lying
It ain't a Richard but this water on me alkaline
And my bitch look like she modeling for Calvin Klein

Jet lag
School drop out I still pull up in a s-class

I got sober stopped the pills
Did withdraws and got the chills
Then put down the weed and drank
I'm still hooked on dollar bills
Independent record sales
We still do alot of deals
Count up all the lean I drank
Homie that's alot of seals
Broke the mold and showed em different ways to get it
Last car a rolls
First car was a Honda Civic
If I drove that shit you drive then id be livid
Dawg you barely getting by
That ain't what we calling livin
I got no limits
Cop the escalade and put the poles in it
That bank account ain't got no commas or no OS in it
Homie that ain't gas cause you gotta put your nose in it
The watch stuck in time homie

Cause we frozen it
