

# Keep to Myself

Caskey

OK I'm rolling up right now  
In a car super clean getting whiped down  
I don't need new friends got my own click  
Everybody gone assume but they never really know shit

Bitch I keep to myself  
Ya'll shooting at me  
Shoot yaself  
Tune em out accumulate the wealth  
I could roll myself an l still wouldn't take an l  
In my hellcat rasing hell  
Tryna take something from me you gone take a shell  
I ain't even tryna take it there  
I thank God that I'm really out here living well

Who need beef when you have spinach?  
I ain't really with the bad business  
I ain't really with the fads, gimmicks  
Who give a fuck about a mad critic  
I'm tryna run it up fast, guiness  
Once I get it I won't send it back to em  
Tennis  
Ya check short like a bad tennet  
Start laggin you won't ever make it to the finish

Bitch I keep to myself  
Ya'll shooting at me  
Shoot yaself  
Tune em out accumulate the wealth  
I could roll myself an l still wouldn't take an l  
In my hellcat rasing hell  
Tryna take something from me you gone take a shell  
I ain't even tryna take it there  
Check the scoreboard they tried and they ain't prevail

Its my time they can't control it  
Can't relate to these posers  
Harley bikes blacked out range rovers  
Got the blueprint I feel like hova  
Save ya two scents I don't even know ya  
All this movement prolly isn't for ya  
First they cross ya then try and say its your fault  
Keep it moving homie I ain't tryna hold ya  
Can't relate  
My enemies never made it far  
In my city I'm the biggest out  
Figure 8s in the i8  
How I did it something they still tryna figure out  
Once I did it thought id give em up  
Homie ask me how I'm living now  
When they sleep on your dreams tell em sleep tight  
My biggest dreams something they ain't ever living out

Ok I'm rolling up right now  
In a car super clean getting whiped down  
I don't need new friends got my own click  
Everybody gone assume but they never really know shit
