

# Legends Never Die

Caskey

Ugh, I'm a lot of things, but a man first  
If all my homies rich before I die, then the plan worked  
Talk to God so much, could start a damn church  
But, lately he ain't talkin' back to me, the man workin'  
Me? I'm busy, so I feel him  
Mo' money, mo' problems, preach  
I got both of them stacked up to the ceilin'  
Ayy, homies tryna rap like me 'cause it's appealin'  
If you switched on me one time, it's fuck y'all for life  
I've been changed up on, crossed over, folk weren't too nice  
Always kept my composure, respect and my pride  
Y'all switch teams up so much, look like you can't decide  
That's something I could never be, huh  
Rather have less success and all my integrity  
But I'm still out in Beverly, yeah  
Countin' checks up heavenly

Oh, I'ma die like a legend  
'Cause I live how the fuck I wanna live, y'all don't, I don't get it  
Mama say I'm a rollin' stone, guess it's in my genetics (yeah)  
Nothin' in my way, if I want somethin' I'ma go and get it (hey, yeah)  
Live how the fuck I wanna live, I'ma die like a legend

Hustled hard, made my mama proud  
Put, camera units in all my house  
Put, guns inside of all my cars  
Tryna, stay alive as long as the stars  
Mama say she prayin' for me daily, I say it's gravy  
Even though the world's goin' crazy, I stay with Hades  
Even though the news camera showin' a mass shootin'  
I ain't ever givin' up 'cause I let my dad do it  
That's why every mixtape got it some sad music  
That's how I alleviate the pain, I rap to it  
This not no game, y'all, you rap, don't quit y'all day job  
Got a lil hype, soon someone gon' replace y'all  
That shit come and go so quick, it's like a eight ball  
You thought it's forever then fate called  
That's why I be blind to the hype, feel like Ray Charles  
That's why I'ma do it all myself, feel like Steve Jobs  
Cut some people out the chronic circle, call it detox  
Women know I rap, suddenly want me to beatbox  
Tryna take my focus off the mission, but I can't  
My profession, to never live like a bitch

I'ma die like a legend  
'Cause I live how the fuck I wanna live, y'all don't, I don't get it  
Mama say I'm a rollin' stone, guess it's in my genetics  
Nothin' finna stop me, see somethin' then I go get it  
Live how the fuck I wanna live, I'ma die like a legend
