

# Make It Look Easy

Caskey

Left from the jeweler, I'm foolish so I always drop jewels  
My homie said I'm built to win, so I will not lose  
I keep the work, yeah, I stayed on my job  
So I always got tools, laugh to the bank but I'm not amused, no

Sorry I make it look easy  
If you knew 'bout all the shit that I did to get here  
Prob'ly wouldn't believe me  
If you knew 'bout all the shit that I did to get here  
Prob'ly wouldn't wanna see me  
If you knew 'bout all the shit that I did to get here

You'd prob'ly judge, I done did some wrong to get the racks  
You'd prob'ly judge me, cuz, I'ma only let God do that  
I hear my name ringin' bells when try discuss me  
My luggage LV, no Kentucky  
No wonder that she wanna touch me  
This was off the hustle, we wasn't lucky  
Okay, catch me, I'm lane switchin'  
Sorry to tell you my chain different  
Man, I seen yo' shit and that shit ain't hittin'  
When I pull up beside ya, my paint drippin'  
Ball 'cause my game different  
You got too much on the side, seen yo' main trippin'  
I'm a leader, but lately I ain't sippin'  
I'ma hit 'cause I ain't missin'

If you knew 'bout all the shit that I did to get here

Prob'ly wouldn't wanna see me, best believe me  
They don't wanna struggle but wanna be me  
I done got everything that I wished for  
But all on my own, I ain't have a genie  
Y'all got that big mouth but your pockets on teeny  
I don't talk much in the lamborghini  
Second I disappear from they life  
That's when they come around and say they need me (okay)  
I think I know why they salty  
I got the cream in my pocket, it ain't for the coffee  
Blessings comin', I can't get 'em up off me  
Foes callin', man, they still tryna off me  
I circle 'round the second they cross me  
Shittin' on 'em, I don't care what it cost me  
Just spit it once again and I'm frosty
