

## Obvious

Caskey

In the kitchen and it's Taysty

I show the proof, I ain't got too much to say (Too much to say)  
Just a couple racks inside the safe (Inside the safe)  
I wish that my haters, they would stay (They would stay)  
But they just gon' show up and go away (And go away)

It's obvious I came up long way from home (Home)  
But I would never change up, for right or wrong (Wrong)  
Got one inside the chamber, shots at your dome (Dome)  
It happens when you famous, a rollin' stone (Stone), ayy

I was down bad, grindin' for so long that somethin' got to give  
Now I'm up, I can't get these haters right here off my dick  
In the Z06, my girl and my coupe, both them top-a-less  
The consequence of all this grindin' christen the metropolis  
I'm super chained up, cars switchin' every week  
You super banged up, y'all should watch on who you speak  
Been killin' y'all at life, if y'all after what I'm after  
I parked the Rolls and now I'm in the sky like it's the rapture  
Tried to slow down, keep goin' faster  
Go against me, it's a disaster  
After shows, shorty count the backend up  
'Cause you can't get nothin' past her (Bih)  
And I could show y'all a thing or two about the hustle  
At that, I'm a master  
You speakin' up, but nobody asked ya

I show the proof, I ain't got too much to say (Too much to say)
