

## Ocean Drive

Caskey

In the kitchen and it's Taysty

Don't think they ever saw it comin' to 'em, Ray Charles  
I kept it solid from the womb to the graveyard  
Bar for bar, me and fake shit don't coincide  
Can't bring 'em all with you up there, homie, you know I tried  
Made it out the best that I could, from the swamps and the wood  
s

Don't gotta overexplain what's understood, uh-uh  
I'm out in Cali, I'm beachside, you know the vibes  
When you this sure of yourself, end up on Ocean Drive

Ain't no attackin' my mental because it's fortified  
Ain't no attackin' my person, I got this forty-five  
Lord knows if I ever quit, that I'll be mortified  
If you just tryna come round and chill, I'll let my shorty ride  
I'm way past chillin', I'm Dame Dash brilliant  
I'm sick of playin' hero, I'll play the masked villain  
When I'm down, I go count me some money to change the feelin'  
Man, I've seen the life you live and to me, it ain't appealin'  
I'm a once in a lifetime, diamond bright shine  
They think it's a overnight grind, it took a lifetime  
You work this much overtime, they say you out your right mind  
Made myself a millionaire and I ain't have a lifeline

Don't think they ever saw it comin' to 'em, Ray Charles  
I kept it solid from the womb to the graveyard  
Bar for bar, me and fake shit don't coincide  
Can't bring 'em all with you up there, homie, you know I tried  
Made it out the best that I could, from the swamps and the wood
