

# Slow Down

Caskey

I'm in the town for one night  
And I need to slow down, yeah

Slow down, rap on the field, trap with the fo' pounds  
Feelin' like the end is near, we gettin' close now  
Look me inside of my eyes, it's like a ghost town  
All my dogs lookin' at me, you need to slow down  
Slow down, trap out the field, trap with the fo' pounds  
Feelin' like the end is near, we gettin' close now  
Look me inside of my eyes, it's like a ghost town  
You need to slow down, you need to slow down

I'm in the field  
I'm blowin' smoke for real  
I'm in a place where there's no love  
Tryna find what is real  
I'm makin' sales  
Tryna stay above water, but they clockin' the seal  
They tried to drown me  
Left me out for damned, but I'm up and it's still  
"Oh shit, he here"  
They lookin' at me like it's somethin' surreal  
Them odds stacked against me  
I kept it busy, I'm chasin' the mill and they still tryna deal  
I came from nothin' to somethin'  
My pops wasn't even there  
Somehow I made my own money  
And y'all busy tryna politic, I'm tryna speed up  
In the city, I'm geeked up  
I ain't slept in like four days  
My brain cells kinda beat up  
My eyes look like a ghost town  
And I did it in my own time  
And all my people tellin' me that, "Boy, you need to..."

Slow down, trap out the field, trap with the fo' pounds  
Feelin' like the end is near, we gettin' close now  
Look me inside of my eyes, it's like a ghost town  
All my partners lookin' at me, yeah  
You need to slow down trap out the field, trap with the fo' pounds  
Look me inside of my eyes, it's like a ghost town  
Feelin' like the end is near, we gettin' close now  
You need to slow down, you need to slow down  
Slow down

Runnin' in the fast lane second that the pack came  
Married to the money, last name  
We don't ever change, but we stack change  
Dark nights in the bat cave  
Ain't no point in frontin', tryna act brave  
Blood stains on the black suede  
You ain't got the answers, why you ask, Sway?  
Feelin' like Ye, bitches in my way  
Money comin' in, it's a business day  
Why you frontin' on me, tryna imitate?  
Life gave me problems, I made lemonade, yeah  
It's somethin' like Em and Jay

Man, I feel like a renegade  
My life purpose was to innovate  
Started out with scrapin' crumbs on the dinner plate  
Yeah, tryna speed up  
I'm workin' overtime, one day I'ma have my feet up  
I'm poppin' too many things, got my heart tryna keep up  
Momma sayin' that, "You beat up and boy, you need to..."

Slow down, trap out the field, trap with the fo' pounds  
Feelin' like the end is near, we gettin' close now  
Look me inside of my eyes, it's like a ghost town  
All my partners lookin' at me, you need to slow  
You need to slow down trap out the field, trap with the fo' pounds  
Look me inside of my eyes, it's like a ghost town  
Feelin' like the end is near, we gettin' close now  
You need to slow down, you need to slow down  
Slow down

I never slow down  
Even if shit ain't the same and it ain't like my old sound  
Hold me down, overpowered, overpriced  
Take a chance, roll the dice  
Hold your own, hold the stance, hold the mic  
Follow your own advice, get to know your vice  
So many people is hangin' on me  
Need my shoulders iced  
Fuck is a poltergeist?  
You don't get a moment twice  
Devil on me, he cold as ice  
Head white as a bowl of rice  
Move that shit on my sober nights  
Reminisce on my older plights  
Nowadays, it's a boulder heist  
Money stack up to shoulder height  
Y'all busy tryna politic, I'm tryna speed up  
In the city, I'm geeked up  
I'm in the kitchen for three days  
I'm tryna turn the heat up  
I just re'd-up, yeah  
Fuck the alphabet, I'm G'd up, yeah  
Momma say, "You beat up," yeah  
Girl, you need to...

Slow down, trap out the field, trap with the fo' pounds  
Feelin' like the end is near, we gettin' close now  
Look me inside of my eyes, it's like a ghost town  
You need to slow down, you need to slow  
Need to slow down, trap out the field, trap with the fo' pounds  
Feelin' like the end is near, we gettin' close now  
Look me inside of my eyes, it's like a ghost town  
You need to slow down, you need to slow down  
Slow down
