

# Take It Off

Caskey

(Feat. Kyle DenMead)

Take it, take it, take it  
Take this, take this, take this off off  
I mean like  
Take this, take this, take this off off  
Yeah

This here unrated, you cold be the one  
I'ma be the one faded with the little bit of syrup in the mix, unjaded  
I bet she better had my money in the many back upon me  
Before you get the smack from me,  
I'm right here in the Cadillac homie,  
You would think I had the cataract homie, had my eyes blurred  
How many cut blowin stickin' thinking why I'm turnt, yeah  
Time to get put it on my side burns long  
I get like end on... that's all,  
And stick you heavy, hope it ain't stick it that wrong  
I like the way to ask,... she just got that wrong  
I like the way to ask, swallow up in that tongue,  
She just gotta throw a pass, I'ma give it that strong,  
Freak it, freak it hands on,  
I like your tight little jeans put the bands on  
I like, I like skin name with the brands on and your pants on still

Hook:

Girl, but when you're gonna take it off  
There's no need for that shirt no more, now take it off  
I'll get you out that skirt you are  
Now don't make this complicated  
'Cause I feel crazy of waiting, say it:  
Take it off!  
Girl, come and take this off!  
Then take this, take it off!  
Girl, come and take this off  
Then take this take it off!  
Girl, come and take this off  
Then take this take it off!  
Girl, come and take this off  
Then take this take this off, off, (yeah yeah yeah yeah yeah)

Sleeping on Pimp C, I just been frozen  
Every jag I take and throw me inside of the moment  
There willing off molly, with me I'm on G pot the dollar  
To me I'm on G 'bout your body  
First off, so I'm on a one game and the shirts off  
We can both place skins, I'm about to rubble band  
Just to end up in the right skirt off,  
Rob rolly, we just skirt off,  
That's a little too fat and the shirts off  
She ain't even gotta have sky...  
So even thinkg about me... and rolling my...  
Man I got an idea, bringing the... inside of IKEA
